QUALITY COMPANIES

- Have a solid financial foundation, healthy balance sheets and conservative financing. Therefore, they are hardly dependent on loans and have real options regarding growth and acquisitions.
- Use the capital entrusted to them profitably and effectively where they benefit from competitive advantages. That's why they generate attractive, recurring income from their core business.
- Serve attractive markets with proven business models. That's why they benefit from good market positioning and above-average profitability.
- Are led by competent and stable management teams. Therefore, they are more capable of mastering challenges and managing the industrial life cycle.
- Take into account and take care of social and environmental aspects in their actions and business activities. These companies create long-term value for all involved and thus guarantee their own survival.

It's our goal to be a reliable solution provider and long-term partner for our customers. That's why we value:

Independence	Objectivity in our investment decisions, as well as the disciplined and systematic implementation of our investment strategy.
Transparency and traceability	Our investment activities are as transparent as possible based on a clear fundamental business analysis. All investment decisions are made with the greatest possible objectivity, exclusively by the Investment Committee.
Stability and entrepreneurial commitment	We offer quality of care through stability and entrepreneurial commitment. We have a long-standing stable and highly qualified team.

INVESTMENT PHILOSOPHY

We invest in corporate quality. Our investment style is traditional, timeless and has its own performance and risk character.

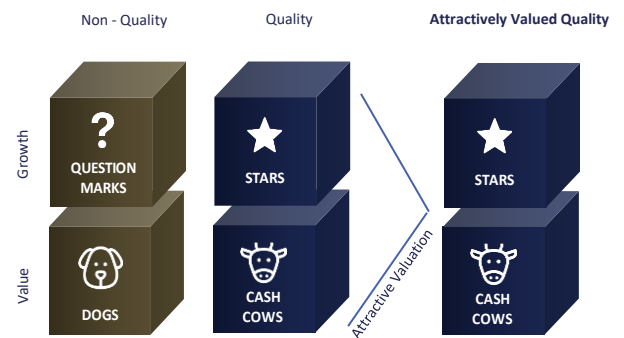

We believe that a clear, disciplined and systematic analysis is the key to sustainable investment success. Our analysis are based exclusively on our own research and self-developed analytical tools.

The core are investments in companies, which are leaders with respect to quality in terms of financial strength, business model, market position and management. In addition, the stock must be valued both absolutely and relatively attractive.

The selection criteria have a demonstrable influence on the corporate success of a company. We have a 100% bottom-up and index-independent best-overall approach.

RESEARCH PROCESS

Hérens Quality AM systematically selects attractively valued quality companies in the universe.

- Economically and valuation-wise sustainable
- Systematic and focused on business quality
- Same criteria worldwide
- Documented in detail
- Sustainable value generation for our customers
